📍 Navi Mumbai

PROFILE

Self-motivated and passionate software developer with hands-on experience in building full-stack web applications and solving real-world problems in a collaborative environment. Known for a strong work ethic, eagerness to learn, and the ability to adapt quickly to new technologies. Seeking opportunities to contribute to impactful projects while continuing to grow as a developer.

EDUCATION

C-DAC -Centre for Development of Advanced Computing - Mumbai | 2023 - 2024

PG Diploma- Development of Advanced Computing

G.H Raison College of Engineering -Nagpur | 2018 - 2022

Bachelor of Engineering

WORK EXPERIENCE

Jio Platforms Limited | 2024 - present

Software Development Engineer-1 (SDE-1)

- Built and delivered internal projects, including the KPI Dashboard portal and JIOCX CoreOps platform, improving data visibility and operational efficiency.
- Worked on both frontend and backend development for scalable enterprise applications.
- Designed and optimized relational databases, ensuring data accuracy, integrity, and query performance. Developed and optimized REST APIs, improving response time and reducing system downtime.
- Automated internal tools and workflows, enhancing support operations and reducing manual intervention.
- Collaborated with cross-functional teams on client onboarding, sales order management, and revenue tracking workflows.
- Applied DevOps practices: gained foundational experience with Docker, CI/CD pipelines, and version control (Azure Repos/Git) for smoother deployment and collaboration.

SKILLS

- Golang
- MySQL
- Redis
- ELK
- Google Cloud Storage
- React JS
- Oracle
- MongoDB
- Java
- HTML, CSS

CERTIFICATES

- Java
- React JS
- Oracle

PROJECTS

JIOCX – CoreOps Platform (Client Onboarding & Revenue Lifecycle)

- Built a full-scale CRM + ERP platform streamlining client onboarding to revenue lifecycle management.
- Developed frontend and backend modules in Go for account management, proposals, legal workflows, sales orders, billing, and revenue recognition.
- Designed client master data in relational databases and securely stored documents in GCS with encryption and watermarking. Integrated financial data (tally records, purchase orders, agreements, amendments) ensuring accuracy and compliance.
- Implemented Notes, Chat, Audit Logs, and Automated Emailer alerts for outstanding dues and low client performance.
- Delivered a centralized solution unifying CRM + ERP workflows, improving efficiency, traceability, and decision-making.

KPI Dashboard Portal (Go, SQL, Redis, ELK)

- Developed a real-time KPI dashboard to monitor SMS, Email, RCS, and WhatsApp performance with integrated revenue tracking.
- Designed for business leads, CSMs, and support teams to evaluate client engagement against commitments and drive service improvements across industries.
- Enabled data-driven decisions to retain business, strengthen client relationships, and support strategic growth initiatives.

SMS Billing Portal (Go, MySQL, Mongo, Redis, ELK)

- Built and optimized backend services for large-scale SMS delivery using Golang.
- Improved performance and reliability through Redis caching and MariaDB query tuning.
- Resolved critical bugs in message flow and data pipelines, ensuring accurate delivery and billing.
